---

Our Level 3 trainees are more advanced and competent in most aspects of hairdressing.

If you require 'something different' such as a complete re-style, the latest cut, 3 or more colours, creative and corrective work or an amazing hair up-do, then these are the people to see. All services include a blow dry/set and finish unless stated.

**\*A cut is not always possible with chemical treatments due to time restrictions. Please confirm when booking your appointment.**

## PLEASE NOTE

A free consultation is required prior to any chemical service.

A skin test will be required 48 hours prior to any colouring service on all new clients. Clients who have not had a colour at GHQ Training within the past 3 months, or require a complete colour change, will also need to book in for a skin test 48 hours before their treatment. Appointments are usually scheduled for 09:45 and/or 13:45.

Our trainees are under supervision, as this is a training salon, and our appointment may take longer than expected. Please be prepared and allow for this on the day of your appointment.

We wish you a pleasant experience with us and thank you for your support as these learners require clients in order to further develop their skills.
